

Section 1: Identification of the Material and Supplier

Product Name: Auto Wash Powder

Other Names: Mixture of surfactants.

Proper shipping name (ADG Code): None assigned.

Recommended use: As a washing powder in automatic car washes.
Use as directed on the product label.

Supplier: Hunters Products (TAS) Pty. Ltd.,
A.C.N. 004 601 263

HEAD OFFICE

60 Gleadow Street,
INVERMAY TAS 7248
Tel: 03 6331 4755
Fax: 03 6334 1065

HOBART OFFICE

105 Albert Road,
MOONAH TAS 7009
Tel: 03 6228 7955
Fax: 03 6228 7988

BURNIE OFFICE

22 Pearl Street,
WIVENHOE TAS 7320
Tel: 03 6431 9627
Fax: 03 6432 2083

Emergency Phone Numbers:

Transport/Fire Emergency: 000 (Emergency services)
Medical Emergency: 131126 (Poisons Information Centre)

Section 2: Hazards Identification

Classified as hazardous according to criteria of Worksafe Australia.

Non-dangerous goods.

Risk Phrases: R: 36/37/38 Irritating to eyes, respiratory system and skin.

Safety Phrases: S: 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S: 36 Wear suitable protective clothing.

Section 3: Composition/Information on Ingredients

Ingredients:

Sodium tripolyphosphate	[7758-29-4]	30 - 60 %
Mixed detergents		< 10 %
Other ingredients deemed not to be hazardous		to 100 %

Section 4: First Aid Measures

For advice, contact a Poisons Information Centre (Phone 131126) or a doctor.

Swallowed: If swallowed, do NOT induce vomiting.

Skin: If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

Eyes: If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes.

Inhaled: Remove from exposure, rest and keep warm. Seek medical advice.

First Aid facilities:

Recommended: Eye wash. Hand wash basin.

Advice to Doctor:

Product is a mixture of surfactant materials containing a low proportion of mixed detergents. Irritating by all routes. If swallowed, vomiting should not have been induced because of risk of aspiration of froth into the lungs. Contact Poisons Information Centre.

Aggravated medical conditions:

Pre-existing skin disorders.

Section 5: Fire Fighting Measures

HAZCHEM Code: None assigned.

Evacuate: No.

Extinguishant: Water.

Risk of violent reaction or explosion: No.

Products of combustion: Oxides of carbon, oxides of sulphur, oxides of phosphorus.

Protective Equipment: Breathing apparatus and protective gloves for fire only.

Section 6: Accidental Release Measures

Emergency Procedures:

Contain.

For large spills:

Contain spillages with sand or earth. Transfer both liquid and solids to suitable container(s). Treat residues as for small spills.

For small spills:

If local regulations permit, mop up with plenty of water and run to waste, diluting greatly with running water. Otherwise, carefully transfer to suitable container, and arrange removal by disposals company. Wash site of spillage thoroughly with water and detergent.

Section 7: Handling and Storage

Precautions for safe handling:

Avoid contact with skin and eyes.
Avoid breathing dust or aerosols.

Conditions for safe storage:

Store in a cool, dry, well ventilated place, out of reach of children. Store in original container. Keep container tightly closed and out of direct sunlight. Keep away from oxidising agents. Protect from physical damage. Clean up all spills and splashes promptly; avoid secondary accidents.

Incompatibles:

Oxidising agents.

Section 8: Exposure Controls/Personal Protection

National Exposure Standards:

ES-TWA: None assigned.

ES-STEL: None assigned.

ES-PEAK: None assigned.

Notations: None.

Biological Limit Values: No data found.

Engineering Controls:

Ensure adequate ventilation (same as outdoors) when using.
If handling industrial quantities, or if dust/aerosol risk exists, consider local mechanical exhaust/extraction to keep airborne contamination as low as possible.

Personal Protective Equipment:

Avoid contact with skin and eyes. Avoid breathing dust or aerosols. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard:-

Normal Use:

Eye/face protection
Gloves, rubber or plastic.

Industrial Quantities:

Dust mask
Face shield or safety glasses
Gloves, rubber or plastic
Plastic apron, sleeves and boots
Impervious overalls.

Section 9: Physical and Chemical Properties

Appearance:	Slightly sticky, white granular powder.	
Odour:	Slight smell of detergents.	
pH:	Slightly alkaline.	
Vapour Pressure:	None.	
Vapour Density:	Not applicable.	
Boiling Point:	No data.	
Melting Point:	No data.	
Volatiles:	None.	
Volatile Organic Compounds (VOC):	None.	
Evaporation Rate:	Not applicable.	
Solubilities:	Soluble in water.	
Specific Gravity/Density:	No data.	
Flash Point:	None.	
Flammable Limits:	None.	
Dust Explosion:	Will not happen.	
Auto-ignition Temperature:	No data.	

Other Information:

Slightly hygroscopic, may absorb moisture from the air.
May react with strong oxidising agents.
Spillages will be slippery when wet.

Section 10: Stability and Reactivity

Chemical Stability:	Stable under normal conditions.
Conditions to Avoid:	Incompatible materials.
Incompatible Materials:	Oxidising agents.
Hazardous Decomposition Products:	Oxides of sulphur, oxides of phosphorus.
Hazardous Reactions:	None known.

Section 11: Toxicological Information

Health Effects:

No data available for the mixture. Information presented relates to individual ingredients.

Acute:	Swallowed:	Likely to cause gastric upset, nausea, vomiting and diarrhoea. Large doses may cause purging, with possible haemorrhage from the intestines.
	Skin:	Irritating to skin. Will have a degreasing effect on the skin.
	Eyes:	Irritant. May cause itching, redness and irritation.
	Inhaled:	Dust, and aerosols of concentrated solutions, will be irritating to the respiratory system. May cause cough, laboured breathing. Inhalation over-exposure, or aspiration of froth into the lungs during swallowing or vomiting, may cause chemical pneumonitis (irritation of lung tissues) and pulmonary oedema (fluid build-up in the lungs). Onset of symptoms may be delayed.
Chronic:	Repeated skin exposure may cause irritation and dermatitic effects.	
LD₅₀:	Sodium tripolyphosphate	3,120 mg/kg oral, rat. > 4,640 mg/kg skin, rabbit.
	Other ingredient #1	5,989 mg/kg oral, mouse.

Section 12: Ecological Information

Ecotoxicity:	May be harmful to aquatic organisms.
Persistence and degradability:	One of the detergents used in this product is not considered to be readily biodegradable.
Mobility:	Readily transported by water.
Environmental Fate:	No data.
Bioaccumulative potential:	No data.

Other adverse environmental effects: Contains detergents. May be harmful to aquatic organisms, including fish. Contains a high proportion of phosphate. May contribute to the development of algal blooms in natural waters.

Section 13: Disposal Considerations

The generator of any wastes from this product is responsible for its proper classification, transport and disposal.

Consult appropriate local and State regulations.
Contains a high proportion of sulphate. Disposal of large quantities of sulphates to concrete sewer may be regulated by local authorities.

Disposal methods and containers:
Avoid disposal to sewer or natural waters.

Special precautions for landfill or incineration:
Unsuitable for incineration.
May be unsuitable for some landfill sites.

Section 14: Transport Information

UN Number:	None assigned.
UN Proper shipping name:	None assigned.
Class and subsidiary risk:	None assigned.
Packaging group:	None assigned.
Special precautions for user:	Contain spillages.
HAZCHEM Code:	None assigned.
Material for export:	Not regulated.

Section 15: Regulatory Information

Poisons (SUSDP):	Not a scheduled poison.			
Dangerous Goods:	No.			
Carcinogen:	Australia	IARC	NTP	RTECS
	No.	No.	No.	No.
Agricultural and Veterinary Chemicals Act:	Not applicable.			
Australian Inventory of Chemical Substances (AICS):	Listed.			
Other National/International Regulations:	No data.			

Section 16: Other information

Date of MSDS update: May 2007
Complete review and re-write of all sections.
