

Section 1: Identification of the Material and Supplier

Product Name: Bowl Care Liquid

Other Names: Aqueous solution containing sulphamic acid.

Proper shipping name (ADG Code): None assigned.

Recommended use: As a toilet bowl cleaner.
Use as directed on the product label.

Supplier: Hunters Products (TAS) Pty. Ltd.,
A.C.N. 004 601 263

HEAD OFFICE

60 Gleadow Street,
INVERMAY TAS 7248
Tel: 03 6331 4755
Fax: 03 6334 1065

HOBART OFFICE

105 Albert Road,
MOONAH TAS 7009
Tel: 03 6228 7955
Fax: 03 6228 7988

BURNIE OFFICE

22 Pearl Street,
WIVENHOE TAS 7320
Tel: 03 6431 9627
Fax: 03 6432 2083

Emergency Phone Numbers:

Transport/Fire Emergency: 000 (Emergency services)
Medical Emergency: 131126 (Poisons Information Centre)

Section 2: Hazards Identification

Not classified as hazardous according to criteria of Worksafe Australia.

Non-dangerous goods.

Risk Phrases: None assigned.

Safety Phrases: None assigned.

Section 3: Composition/Information on Ingredients

Ingredients:

Sulphamic acid	[5329-14-6]	10 - 30 %
Disinfectant		< 10 %
Surfactant		< 10 %
Other ingredients deemed not to be hazardous		< 10 %
Water	[7732-18-5]	to 100 %

Section 4: First Aid Measures

For advice, contact a Poisons Information Centre (Phone 131126) or a doctor.

Swallowed: If swallowed, do NOT induce vomiting.

Skin: If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

Eyes: If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes.

Inhaled: Remove from exposure.

First Aid facilities:

Recommended: Eye wash. Hand wash basin.

Advice to Doctor:

Product contains a moderate proportion of sulphamic acid and a low proportion of surfactant. May be irritating to eyes and skin. If swallowed, vomiting should not have been induced because of risk of aspiration of froth into the lungs. Contact Poisons Information Centre.

Aggravated medical conditions:

No data found.

Section 5: Fire Fighting Measures

HAZCHEM Code: None assigned.

Evacuate: No.

Extinguishant: Water.

Risk of violent reaction or explosion: No.

Products of combustion: Water vapour, oxides of carbon, oxides of sulphur, oxides of nitrogen, traces of hydrogen chloride.

Protective Equipment: Breathing apparatus and protective gloves for fire only.

Section 6: Accidental Release Measures

Emergency Procedures:

Contain.

For large spills:

Contain spillages with sand or earth. Transfer both liquid and solids to suitable container(s). Treat residues as for small spills.

For small spills:

If local regulations permit, mop up with plenty of water and run to waste, diluting greatly with running water. Otherwise, absorb on inert absorbent and transfer to suitable closed container. Wash site of spillage thoroughly with water and detergent.

Section 7: Handling and Storage

Precautions for safe handling:

Avoid contact with skin and eyes.

Conditions for safe storage:

Store in a cool, well ventilated place, out of reach of children. Large quantities should be stored in a bunded area. Store in original container. Keep container tightly closed and out of direct sunlight. Keep away from alkalis, oxidising agents. Protect from physical damage. Clean up all spills and splashes promptly; avoid secondary accidents.

Incompatibles:

Alkalis, oxidising agents.

Section 8: Exposure Controls/Personal Protection

National Exposure Standards:

ES-TWA: None assigned.

ES-STEL: None assigned.

ES-PEAK: None assigned.

Notations: None.

Biological Limit Values: No data found.

Engineering Controls:

Ensure adequate ventilation (same as outdoors) when using. If handling industrial quantities, or if vapour risk exists, consider local mechanical exhaust/extraction to keep airborne contamination as low as possible.

Personal Protective Equipment:

Avoid contact with skin and eyes. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard:-

Normal Use:

Eye/face protection
Gloves, rubber or plastic.

Industrial Quantities:

Face shield or safety glasses
Gloves, rubber or plastic
Plastic apron, sleeves and boots
Impervious overalls.

Section 9: Physical and Chemical Properties

Appearance: Blue, viscous liquid.
Odour: Oil of wintergreen.
pH: Very acidic.
Vapour Pressure: No data.
Vapour Density: No data.
Boiling Point: > 100 °C
Melting Point: No data.
Volatiles: About 81 %
Volatile Organic Compounds (VOC): < 1 %
Evaporation Rate: No data.
Solubilities: Miscible with water in all proportions.
Specific Gravity/Density: About 1.1 g/mL @ 20 °C
Flash Point: None.
Flammable Limits: None.
Dust Explosion: Not applicable.
Auto-ignition Temperature: No data.

Other Information:

Very acidic mixture. May react vigorously with alkalis. Contact with carbonates or bicarbonates will generate carbon dioxide, a simple asphyxiant. May react with oxidising agents. May be corrosive to most metals. Very slippery when spilled.

Section 10: Stability and Reactivity

Chemical Stability: Stable under normal conditions.
Conditions to Avoid: Incompatible materials.
Incompatible Materials: Alkalis, oxidising agents, metals.
Hazardous Decomposition Products: Oxides of sulphur, oxides of nitrogen, traces of hydrogen chloride..
Hazardous Reactions: May react vigorously with alkalis.
Corrosive to most metals.

Section 11: Toxicological Information

Health Effects:

No data available for the mixture. Information presented relates to individual ingredients.

- Acute:**
- Swallowed:** Likely to cause gastric upset, nausea, vomiting and diarrhoea. May cause sore throat, a burning sensation in the abdomen, and abdominal cramps. An aspiration risk.
- Skin:** Will degrease the skin. May cause irritation, redness, itching. Prolonged contact may lead to skin burns.
- Eyes:** May be irritating to eyes. May cause burns and tissue damage on prolonged contact.
- Inhaled:** An unlikely route owing to the low volatility of most ingredients. Aspiration of froth into the lungs during swallowing or vomiting may lead to chemical pneumonitis (irritation of the lung tissues) and pulmonary oedema (fluid build-up in the lungs). Onset of symptoms may be delayed.
- Chronic:** Repeated skin contact may lead to irritation and burns.
- LD50:** Sulphamic acid 3,160 mg/kg oral, rat.

Section 12: Ecological Information

- Ecotoxicity:** Harmful to aquatic organisms. May cause long term adverse effects in the aquatic environment.
- Persistence and degradability:** The surfactant used in this product is not considered to be readily biodegradable.
- Mobility:** Readily transported by water.
- Environmental Fate:** No data.
- Bioaccumulative potential:** No data.
- Other adverse environmental effects:** Contains a surfactant. Local concentrations will be harmful to aquatic organisms, including fish.

Section 13: Disposal Considerations

The generator of any wastes from this product is responsible for its proper classification, transport and disposal.

Consult appropriate local and State regulations.

Disposal methods and containers:

Avoid disposal to natural waters or the environment.
Avoid using metal containers.

Special precautions for landfill or incineration:

Unsuitable for incineration.
May not be suitable for some landfill sites.

Section 14: Transport Information

UN Number:	None assigned.
UN Proper shipping name:	None assigned.
Class and subsidiary risk:	None assigned.
Packaging group:	None.
Special precautions for user:	Keep away from alkalis, metals. Contain spillages.
HAZCHEM Code:	None assigned.
Material for export:	Not regulated.

Section 15: Regulatory Information

Poisons (SUSDP):	Schedule 6 <i>Sulphamic acid > 10 %</i>								
Dangerous Goods:	No.								
Carcinogen:	<table> <tr> <td>Australia</td> <td>IARC</td> <td>NTP</td> <td>RTECS</td> </tr> <tr> <td>No.</td> <td>No.</td> <td>No.</td> <td>No.</td> </tr> </table>	Australia	IARC	NTP	RTECS	No.	No.	No.	No.
